IMPORTANT: This document does not constitute or form part of, and should not be construed as an offer for sale or subscription of or a solicitation or invitation of any offer to subscribe for or purchase any loans or securities of the Company or any other member of the Group or any other entity in any jurisdiction, and nothing contained therein shall form the basis of or be relied on in connection with any contract or commitment whatsoever, in particular, it must not be used in making any investment decision.

No representation, warranty or undertaking, express or implied, is made by the Company or any of the Company's respective affiliates or any of its of their respective directors, officers, employees or agents ("Representatives") or any other person as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of this document or the opinions contained therein or any other statement made or purported to be made in connection with the Company or the Group, for any purpose whatsoever, including but not limited to any investment considerations. No responsibility, obligation or liability whatsoever, whether arising in tort, contract or otherwise, is or will be accepted by the Company or any of its respective Representatives or any other person for any loss, cost or damage howsoever arising from any use of this document, or for information or opinions or for any errors, omissions or misstatements contained therein or otherwise arising in connection therewith.

This document is subject to updating, revision, amendment, verification, correction, completion and change without notice. In providing access to this document, none of the Company or any of their respective Representatives or any other person undertakes any obligation to provide the attendee or recipient with access to any additional information or to update this document or to correct any inaccuracies in this document, including any financial data or forward-looking statements. This document should be considered in the context of the circumstances prevailing at the time and has not been, and will not be, updated to reflect material developments which may occur after the date thereof.

This document may constitute or include forward-looking statements. Forward-looking statements are statements that are not historical facts and may be identified by words such as "plans", "targets", "aims", "believes", "expects", "anticipates", "intends", "estimates", "will", "may", "continues", "should" and similar expressions. These forward-looking statements reflect, at the time made, the Company's beliefs, intentions and current targets/aims concerning, among other things, the Company's or the Group's results of operations, financial condition, liquidity, prospects, growth and strategies. Forward-looking statements include statements regarding: objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; developments of the Company's or the Group's markets; the impact of regulatory initiatives; and the strength of the Company's or any other member of the Group's competitors. Forward-looking statements involve risks and uncertainties

because they relate to events and depend on circumstances that may or may not occur in the future. The forward-looking statements in this document are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records (and those of other members of the Group) and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Forward-looking statements are not guarantees of future performance and such risks, uncertainties, contingencies and other important factors could cause the actual outcomes and the results of operations, financial condition and liquidity of the Company and other members of the Group or the industry to differ materially from those results expressed or implied in this document by such forward-looking statements. No representation or warranty is made that any of these forward-looking statements or forecasts will come to pass or that any forecast result will be achieved. Undue influence should not be given to, and no reliance should be placed on, any forward-looking statement. No statement in this document is intended to be nor may be construed as a profit forecast.

To the extent available, the industry, market and competitive position data contained in this document come from official or third party sources. Third party industry publications, studies and surveys generally state that the data contained therein have been obtained from sources believed to be reliable, but that there is no guarantee of the accuracy or completeness of such data. While the Company believes that each of these publications, studies and surveys has been prepared by a reputable source, none of the Company or any of its Representatives has independently verified the data contained therein. In addition, certain of the industry, market and competitive position data contained in this document come from the Company's own internal research and estimates based on the knowledge and experience of the Company's management in the markets in which the Company and the other members of the Group operate. While the Company believes that such research and estimates are reasonable, they, and their underlying methodology and assumptions, have not been verified by any independent source for accuracy or completeness and are subject to change and correction without notice. Accordingly, reliance should not be placed on any of the industry, market or competitive position data contained in this document.

Some of the Company's historical financial data for the periods following 1 January 2019 are presented herein under IAS 17 standard in addition to being presented under IFRS 16 standard, the lease standard under the IFRS that the Company started applying beginning on 1 January 2019. Presentation herein under IAS 17 for the periods following 1 January 2019 is primarily due to the fact that the Company believes that the investment community continues to focus on IAS 17 in analysing performance of retail companies. The results of the Company's operations presented under IAS 17 following 1 January 2019, however, are shown only for illustrative purposes. You should note that

the results of the Company's operations presented under IAS 17 after 1 January 2019 have not been audited or reviewed by the Company's independent auditors. In addition, the Company reserves the right to change its approach to presentation of its results of operations going forward. Therefore, you are strongly cautioned not to rely on the results of the Company's operations presented under IAS 17.

Furthermore, certain companies mentioned in this presentation, report under generally accepted accounting principles in the United States ("U.S. GAAP") or other local accounting standards. IFRS differ in certain significant respects from U.S. GAAP and such local accounting standards. Therefore, financial measures of such companies presented herein on the basis of such accounting principles and standards could be significantly different were such companies to report under IFRS. You should, therefore, consult your own advisors for an understanding of the differences between IFRS and other accounting principles, including U.S. GAAP, and how these differences might affect the financial information herein. Furthermore, certain financial measures presented herein (including EBITDA and ROIC) are unaudited supplementary measures of the Company's performance that are not required by, or presented in accordance with, IFRS, including financial measures for the periods after 1 January 2019 presented under IAS 17. The Company's use and definition of these metrics may vary from other companies in the Company's industry due to differences in accounting policies or differences in the calculation methodology as different companies use such measures for differing purposes that reflect the circumstances of those companies. These non-IFRS measures have limitations and should not be considered in isolation, or as substitutes, for financial information as reported under IFRS. Accordingly, undue reliance should not be placed on these non-IFRS measures presented herein.

On 19 July 2024, the Company announced its intention to remove its Regulation S (ISIN US33835G2057) and Rule 144A (ISIN US33835G1067) global depositary receipts, representing interests in the Company's shares (the "GDRs"), from the Official List of the Financial Conduct Authority and to cancel the trading of GDRs on the Main Market of the London Stock Exchange with effect from 19 August 2024. The existing listing of the Company's GDRs on the Astana International Exchange under the symbol "FIXP.Y" is expected to continue.

COMMENTS

- With a significant cash balance on its balance sheet in an environment of high interest rates, the Company proactively prepaid suppliers' orders at the end of 2023 to benefit from improved commercial terms. This positively impacted the Group's gross profit, but resulted in an increase in net trade working capital to RUB 14.5 billion (5.0% of revenue) as of 31 December 2023, from RUB 9.1 billion (3.3% of revenue) as of 31 December 2022

LFL PERFORMANCE

2-YEAR STACKED LFL SALES DYNAMICS⁽¹⁾⁽²⁾

COMMENTS ON QUARTERLY DYNAMICS

- In Q2 2024, LFL sales increased by 3.2%, while the LFL average ticket was up by 5.7%, and LFL traffic decreased by 2.3%. Overall consumer sentiment was on the rise, which resulted in an increase in impulse buying, although traffic recovery was still under pressure. The fact that the seasonal assortment resonated with customers' wants and demands supported the LFL average ticket

- LFL sales at Company-operated stores in Russia increased by 2.0%. Rouble-denominated LFL sales dynamics in Kazakhstan and Belarus had a positive effect on the Group's LFL sales on the back of stronger sales performance and the currency conversion effect

- Stores in Belarus and Kazakhstan demonstrated LFL sales growth in their national currencies, thanks to consistent improvement in traffic trends, although the average ticket in Kazakhstan was affected by the high base of the previous year

Source: Company information; LFL data as per Management Accounts

Notes: 1 Like for like (LFL) sales, average ticket and number of tickets are calculated based on the results of stores operated by Fix Price and that were open for at least 12 full calendar months preceding the reporting date. LFL sales and average ticket are calculated based on retail sales including VAT. LFL numbers exclude stores that were temporarily closed for seven or more consecutive days during the reporting and/ or comparable period; 2 Stacked LFL is calculated according to the following formula: $(1 + \text{LFL Q}) * (1 + \text{LFL Q-1}) - 1$, where LFL Q is current quarter LFL sales growth and LFL Q-1 is LFL sales growth for the same quarter of previous year

●●● Q2 and H1 2024 Operating and Financial Results

COMMENTS

- SG&A costs (excl. LTIP⁽²⁾ and D&A expenses) grew by 198 bps y-o-y to 17.3% of revenue, mainly driven by growth in staff costs, advertising, repair and maintenance costs and other expenses as a percentage of revenue, which was partially offset by improved cost management in terms of bank charges, rental expense, security services and utilities
- Staff costs excluding LTIP⁽²⁾ increased by 191 bps y-o-y to 13.3% of revenue, driven by salary indexation amid persisting market-wide labour shortages and an increased number of personnel due to the opening of new DCs in 2023
- Rental expense (under IFRS 16) decreased by 2 bps y-o-y to 0.6% of revenue (down 3 bps to 0.7% of retail revenue), on the back of a decline in the share of the variable component in the lease payment structure due to softer revenue growth

CAPEX⁽¹⁾

(RUBbn)

CAPEX COMPOSITION

(Q2 2024, %)

COMMENTS

- CAPEX for Q2 2024 remained flat y-o-y and amounted to RUB 1.3 billion, primarily reflecting investments in new store openings
- The Company confirms the forecast for 750 net new store openings in 2024 and plans to keep CAPEX low as a share of revenue thanks to the standardised store layouts and assortment and high levels of business process automation

COMMENTS

Net trade working capital⁽¹⁾ grew to RUB 17.5 billion (5.7% of revenue)⁽⁵⁾ as of 30 June 2024, versus RUB 14.5 billion (5.0% of revenue) as of 31 December 2023, while still remaining at a comfortable level. Considering its strong liquidity cushion, the Company purchased additional inventory to maintain sufficient stock of traffic-driving essentials and seasonal items in order to support LFL sales
